

# DISTRICT 5320

ORANGE AND SOUTHERN LOS ANGELES COUNTY

## DISTRICT SIMPLIFIED GRANT APPLICATION

Please print or type all information and use additional sheets of paper if necessary. **Incomplete applications will be returned.**

**ROTARY CLUB OF Garden Grove**

**AMOUNT REQUESTED FROM DISTRICT \$1250.00**

Not to exceed \$1500 and/or the amount contributed by the Rotary club

### PROJECT DESCRIPTION:

Please describe the project, its location, the objectives, and how they will be attained. Note: The project cannot be started until the District Simplified Grant Application is approved by the district grants subcommittee.

**1. What is the purpose of this project?** To place life saving AED's (Automated External Defibrillators) in and around public places in our community. This simplified grant will provide us with the funds necessary to purchase three (3) units, complete with extra batteries, defibrillation pads and wall mount cases.

**2. How will it meet the needs of the community?** These devices are proven to save the lives of victims of SCA (sudden cardiac arrest).

Estimated project start date: 9-1-11

Estimated project completion date: 10-1-11

### OTHER NON-ROTARY ORGANIZATIONS:

If this project involves a cooperating organization, provide the name of the organization below, attaching a letter of participation from that organization that specifically states its responsibilities and how Rotarians will interact with the organization in the project. By signing this application, the Rotarian sponsors endorse the organization as reputable and responsible.

Name of Organization: N/A

## **PROJECT BUDGET:**

**Include a complete itemized budget for the entire project. Please use separate pages if necessary. Price quotes from the supplier and/or other cost documentation must be attached for each item.**

See Attached Exhibit Quote from Progressive Medical International

**TOTAL \$2549.30**

## **PURCHASE OF EQUIPMENT, MATERIALS OR SUPPLIES:**

**1. Who will own equipment, materials, or supplies?** The recipient locations and organizations will take possession and ownership of the AED's, as well as becoming responsible for the follow-up training, operation and maintenance of the devices once awarded.

**2. Who will be responsible for maintenance, operating, and/or storage costs of the equipment/supplies?** The recipient locations and organizations will take possession and ownership of the AED's, as well as becoming responsible for the follow-up training, operation and maintenance of the devices once awarded.

## **PUBLICITY:**

**How will the general public know that this is a Rotary-sponsored project? Please provide details, e.g. publicity in a newspaper or display of the Rotary wheel (complying with RI guidelines).** Please see attached exhibited news stories of our previous placements.

## **ROTARIAN INVOLVEMENT:**

**Please list below the activities your club will undertake demonstrating the active involvement of Rotarians in this project.** As with all previous AED placements, our Rotary Club also provides the CPR and AED training to the recipient organization. We open that classroom up to all friends and family of both our Rotarian members as well as friends and family of the trainees which always has proven to provide us with the opportunity to share with them outreach information regarding our club as well as the work the Rotary International does all around the world.

## **REPORT:**

A final report must be submitted to the District Grants Subcommittee. Please indicate below the individual who will take primary responsibility for submitting this report.

Name: Scott Weimer

Signature Scott Weimer

## PROJECT CONTACTS:

### Primary Contact

Name: Scott Weimer

Rotary position: 2009-2010 President

E-mail: scott@weimerandassociates.com

Address: 12866 Main Street, #100

Garden Grove, CA 92840

Telephone: 714-739-8008  
home

office

### Secondary Contact

Name: Dr. Bill Annan

Rotary position: 2010-2011 President

E-mail: billannan@sbcglobal.net

Address: 10961 Lake Court Road

Santa Ana, CA 92705

Telephone: 714-730-3822  
home

714-235-2143  
office

## PROJECT AUTHORIZATION:

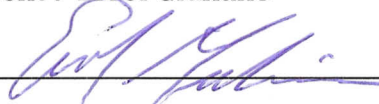

All Rotary clubs and districts involved in this district are responsible to The District 5320 Foundation Grants Subcommittee and ultimately to The Rotary Foundation of Rotary International for the conduct of the project and for reporting on it. The signature at the bottom of this page confirms that the sponsors understand and accept responsibility for the project.

By signing below, I agree to the following:

- All information contained in this application is true and accurate, to the best of my knowledge.
- The club has agreed to undertake this project as an activity of the club.
- I understand and will comply with the required Rotarian activities and reporting requirements.
- I agree that, should the project take more than six months to complete, interim reports will be submitted every six months, and final reports will be provided no later than two months after the completion of the project.

## HeartStart FR2+ Defibrillator

*HeartStart FR2+ Defibrillator*

Trusted most often by those  
depended on to save lives

The HeartStart FR2+ Defibrillator has come to be a trusted tool of professional responders and designated response teams in the workplace and public settings. Its clean, uncluttered design is optimized for fast, efficient operation and rapid delivery of potentially life-saving therapy. Commands are clear, streamlined, confident, and concise: ideal for responders who are trained, drilled, and ready to save a life now.

The therapy delivered by the HeartStart FR2+ is the most proven in the industry. More than 40 studies confirm its

effectiveness. Philips' high-current/low energy therapy ensures a potent defibrillation dose, while at the same time, minimizing side effects that may be harmful to a fragile heart. So the HeartStart FR2+ can deliver its most powerful therapy from the very first shock. There's no need to hold back.

### Capabilities and Features:

- Automated defibrillation, with manual override (ECG model only)
- SMART Analysis
- SMART CPR and Quick Shock
- Infant/child defibrillation
- Conscious monitoring with optional FR2+ ECG Assessment Module
- Optional rechargeable battery
- Two display options: text-only, and text with ECG
- Voice and text prompts
- Over 8 hours of data collection
- Programmable voice recording
- Automated self-tests
- "Ready-for-Use" indicator
- Long-life battery: 300 shocks (minimum) or 12 hours monitoring
- Pads can connect to most ALS defibrillator/monitors via pads adapters

### SMART CPR

Research shows that for some patients, especially those in long-duration cardiac arrest, CPR prior to defibrillation may provide more benefit.<sup>1,2</sup> The SMART CPR algorithm of the HeartStart FR2+ Defibrillator can be configured to look at characteristics of a shockable heart rhythm and advise the user to provide either an immediate defibrillation shock or CPR first, followed by a shock.

### Quick Shock

Research also suggests that the opportunity for survival can be improved if interruptions to CPR are minimized.<sup>3,4</sup> The Quick Shock capability of the HeartStart FR2+ Defibrillator readies the defibrillator within seconds to deliver a shock, reducing the time between CPR and defibrillation.

**AED Services** In addition to our world-class AEDs, our services make your AEDs easy to own. Whatever your needs, we'll work with you to help implement the solutions that are right for you. We can help you easily manage the components of your AED program, from online management of device and training data to more comprehensive services depending on your organization's needs.
