HERE IS THE THEM FOR OUR WORK *"LATRINE FOR LIFE
WITH THE POOR FOR THE POOR"*

ABOUT CAMBODIA

Cambodia is the country in Southeast Asia that borders Thailand to the west and northwest, Laos to the northeast, Vietnam to the east, and the Gulf of Thailand to the southwest, the geography of Cambodia is dominated by the Mekong River (Tonle Mekong) and Tonle Sap Lake.

Cambodia has an area of 181,035 square km and lies entirely within the tropics, between latitudes 10° and 15°N, and longitudes 102° and 108°E. It has a 443 km coastline along the Gulf of Thailand.

Cambodia's climate, like that of the rest of Southeast Asia is dominated by monsoons, which are known as tropical wet and dry because of the distinctly marked seasonal differences.

Cambodia has a temperature range from 21 to 35 °C (69.8 to 95 °F) and experiences tropical monsoons. Southwest monsoons blow inland bringing moisture-laden winds from the Gulf of Thailand and Indian Ocean from May to October. The northeast monsoon ushers in the dry season, which lasts from November to March. The country experiences the heaviest precipitation from September to October with the driest period occurring from January to February.

In the community is having a lot of families who do not have toilet to use daily . *The Solidarity Fund for Rural Development* and *Latrine for life* has the program to support at the remote areas for the poor families. We work with the rural families, with the poor and unprivileged families who do not have the fund to support their needs. Because our program is in this area country side, we see there are so many families who do not have latrine or toilet (WC) to use as the restrooms in their family, *when Mr. Lund Niels had been visited in Cambodia three years ago, he saw and he would like to see these families should have the toilet*, he is helping and find donors from Rotary Club and individual donor to support our program. Mr. Lund Niels has a good feeling that those families in these remote areas should have the latrine for their family. Through our work we can relief their burden. Certainly, our program is bringing *the hope to the poor families in rural areas in Cambodia*. We are selected 2 families who are desperate need our assistant to build the latrine projects for them. Their names are as follows:

1. **Mrs. Kong Na(Widow):** She has 3 children. Mom and the children were very, very happy to get the latrine from our program; they can use it on a daily basic. Now, we are getting the Tippy-Tap for my children as well to learn how to wash hand after use in restroom. She says thank to you very much for your generosity and kindness to build this latrine for my family. I am living in the rural area can not afford it with your donation, your fund is making the change to my family and you bring the hope to my family and I will remember your gift today and forever! I am grateful t to have this latrine!

2. **Mrs. Ek Yern (Separated from husband):** She has three (3) children, I am my children are very, very happy to get the normal toilet to use in my family. I would like to thank you very much for your fund to build my latrine. Your donation for my family is a great gold day for my family for us that we never ever have like this WC before! We are very happy to get this facility to support our daily life. Our family wishes to have toilet for a long time and now it becomes true. We will use it daily and we use with Tippy- Tap for my kids. Gladly, we will remember your gift for today and forever!
