Re: Participation, Arboretum Cleanup

To Rotary Grant Administrators,

Each year, we work to better our community through community based projects. In 2016, we completed over 1,200 community service hours! We expect to top that in 2017. Our teens are motivated to make a difference in Fullerton.

With your help, we will continue to make change happen in our community. This year, we plan to help our local service groups by joining in some of their activities including essay contests, holiday events, and a community cleanup at the Fullerton Arboretum. The Arboretum cleanup is normally the last weekend of September and prepares the location for their busy school tour season. I remember taking tours at the Arboretum as an elementary school kid.

We look forward to working with our local service groups to better our community. Please accept this letter as our commitment to participate in the Rotary South events.

Thank you,
