HERE IS THE THEME FOR OUR WORK "LATRINE FOR LIFE  
WITH THE POOR FOR THE POOR "

## ABOUT CAMBODIA

Cambodia is the country in Southeast Asia that borders Thailand to the west and northwest, Laos to the northeast, Vietnam to the east, and the Gulf of Thailand to the southwest, the geography of Cambodia is dominated by the Mekong River (Tonle Mekong) and Tonle Sap Lake)

Cambodia has an area of 181,035 square km and lies entirely within the tropics, between latitudes 10° and 15°N, and longitudes 102° and 108°E. It has a 443 km coastline along the Gulf of Thailand.

Cambodia's climate, like that of the rest of Southeast Asia is dominated by monsoons, which are known as tropical wet and dry because of the distinctly marked seasonal differences.

Cambodia has a temperature range from 21 to 35 °C (69.8 to 95 °F) and experiences tropical monsoons. Southwest monsoons blow inland bringing moisture-laden winds from the Gulf of Thailand and Indian Ocean from May to October. The northeast monsoon ushers in the dry season, which lasts from November to March. The country experiences the heaviest precipitation from September to October with the driest period occurring from January to February.

In the community has many families who do not have toilet to use as restroom. Latrine for life and The Solidarity Fund for Rural Development are selecting the families in the remote areas of

rural families. We are working with the rural families, with the poor and unprivileged families who do not have the fund to support their needs to build the latrine in the families.

Our program is supporting in rural location of Cambodia, we know there are so many families who do not have latrine or toilet (WC) to use as the restrooms in their family. *When Mr. Lund Niels had been visited in Cambodia four (4) years ago, he saw and he would like to see these families should have the Latrine in their Life through our sanitation program*, he is helping and found donors from Rotary Clubs and individual donors to support our work program. With the great support, this Sanitation Project Has been made possible by Generous Grants from the following: [Solana Beach ECO Rotary Club](#)

Finally, our program is bringing *the hope to the poor families in rural areas in Cambodia*. Actually, we have selected four (4) families who are desperate need with our assistant to construct the latrine projects in March, 2018 in Kbob, Preytoteng village commune rural location. Today, we did turn –over the latrine project and we did also distribute the water filters to these families with our construction team in March 25, 2018. The families who need our assistant with their names are as follows:
