

District Grant Report

Rotary Club: Irvine
Project Title: P2209 Ensenada Dental / Vision Clinics

Progress Report Final Report

1. **Briefly describe the project.** What was done, when and where did project activities take place, and who were the beneficiaries?
During 2018-2019 Rotary year we provided \$120,470 in free dental and vision services to more than 400 children and parents in the greater Ensenada area. Since its inception in April 2005, this project/program has provided more than \$1.3 million in free services to the poorest and most destitute residents of the Ensenada community.
 2. **How many Rotarians participated in the project?**
More than 150 Rotarians, Rotarators, and Youth Exchange students (Italy, France, Hungary, Poland, Germany) from Irvine, Manteca, and Ensenada took part in the project.
 3. **What did they do?** Please give at least two examples.
Rotarians selected the school venue for the clinics, arranged for the dental professionals, checked in children, provided vision exams, worked with the dentists, directed patients, kept records, distributed surplus clothing collected by Ensenada Rotarians.
 4. **How many non-Rotarians benefited from this project?**
403 children and parents were treated for dental or vision problems.
 5. **What are the expected long-term community impacts of the project?**
Children who are not suffering from dental or vision problems do better in school. Parents of the children do not have to take time off from work to get treatment. Often taking off from work means the family will not be able to eat that day. Parents with corrected vision are able to work more effectively.
 6. **If a cooperating organization was involved, what was its role?**
Dental Care for Children provided dental professionals and supplies. Manteca Optical provided glasses.
