## Project Description:

1. Describe the project. What was done, when, and where did project activities take place? If this is a progress report, what remains to be done?

The project was planned jointly by the Rotary E-Club of Heritage New York and the Nassau University Health Foundation. It was managed and executed by the Foundation. The main entrance of the NUH Hospital has been in need of repairs and updating. Under the Project, 8 benches were installed that will allow pregnant women, children, patients, visitors, and handicapped persons safe waiting at the entrance to the hospital as they wait for their transportation. A plaque designating the Club and District as donors of the benches was installed on one of the benches. The project ran from September 2019 to March 2020. The project is considered completed.

Approximately 100,000 people annually use this entrance, including patients to the hospital's clinics, patients being discharged and visitors. Many are unable to stand for any period of time. These 8 benches provide seating for these people as they wait for buses, taxis or other transportation.
