"GRANTS FOR TEACHERS" Application

Date: 10/16/2022

Teacher: Timothy Thomas

School: Rea Elementary

Grant Name/Title: Literacy Learning Centers

Grant Amount Request: \$495.85 Grade Level(s): Kindergarten

Teacher's Email: tjthomas@nmusd.us

NOTE: This year's winning grants will need to purchase items and send receipts To helenrotary@2maxwells.com. A check for receipts will be mailed to teacher's address or to teacher in care of the school within 2 or 3 days of receipt of the receipts.

Address to mail check: 9152 Playa Dr. Huntington Beach, CA 92646

Brief Description: These materials will be used during my learning center time. This time allows me

to work with small groups of students and focus my attention on addressing their specific learning needs.

In order for this to be successful, the rest of the students need to be able to work independently on a task.

These materials are ideal for independent learning because they are fun, hands on, and can be easily adapted to match student skill level.

How many students will benefit from this grant? 25

What is your plan and how will it be implemented? _____

My class participates in learning centers for 40 minutes every day. I plan out 4 centers every two days. Groups of 5 to 6 students rotate

through 2 centers each day, spending 20 minutes at each center. I teach one of the centers, my aide teaches another center,

and the other two centers are independent work. The timer will be used to manage time for the rotations and the activities will be independent learning centers.

Describe two ways the students will benefit from this grant/program: _____

Students will develop an understanding of the alphabet including the names of the letters,

formation of the letters, and the sounds the letters make. Students will also develop their literacy skills

by practicing their ability to blend the sounds of letters to read words and reviewing their sight word knowledge,

"GRANTS FOR TEACHERS" Application

4

Date: October 12, 2022

Teacher: Tiffany Kane

School: Rea Elementary

Grant Name/Title: Rea Robosharks

Grant Amount Request: \$944.87 Grade Level(s): 4th - 6th

Teacher's Email: tkane@nmusd.us

NOTE: This year's winning grants will need to purchase items and send receipts To helenrotary@2maxwells.com. A check for receipts will be mailed to teacher's address or to teacher in care of the school within 2 or 3 days of receipt of the receipts.

Address to mail check: 661 Hamilton Street, Costa Mesa, CA 92627

Brief Description: "Rea Robosharks" is a grant requesting VEX IQ Robotics equipment for our Robotics team. All 4th-6th grade students can join the Robotics team where they work together and engage in the Engineering Design Cycle by building, designing, and modifying their robots. They will also compete with the 2022-2023 VEX IQ game. Most importantly, they will learn to collaborate, make new friends, and hopefully, find a new passion for science!

How many students will benefit from this grant? 30-100 4th-6th students
(and all future 4th -6th grade students)

What is your plan and how will it be implemented? My plan is to purchase more equipment to allow smaller teams of students to work on a single robot. Ideally, each robot is meant to have a team of 2 students. Due to our limited equipment and large number of students, since we accept all students, we usually have 4-6 students per robot. Smaller teams will allow for more engagement in the engineering design process.

Describe two ways the students will benefit from this grant/program: One way
students will benefit from this program is the ability to engage in and explore the world of STEM.
Another way students will benefit is they may find a new passion, future college major, and career goal because working with robots could open students' minds to a new area of interest, study, and future career.

---------------------	-----------------

Per our [order policies](#), we do not offer partial shipping for orders containing backordered items. If you require in-stock items urgently, we recommend placing a separate order for the backordered items.

Beginning April 1, 2019, VEX Robotics will begin collecting sales tax in compliance with the recent South Dakota vs. Wayfair ruling. [More Information](#).
