

Prosthetic Hands Project

Randy, based on funding, we are going to get as many hands as possible. With \$6,000 we can get 40 hands ($\$150 \times 40 = \$6,000$)

Below is the e-mail and can provide receipts for the hands and pictures of the project, is this what you need. David Dunn is out for a week, but I sent the questions and my signature.

Subject: RE: Prosthetic hand project

Hi Troy!

Absolutely, call me anytime if you have additional questions. I have included a link for the hands kit, my company's video that we did with Odyssey and a link to Lain's page which is who I met and am working with to get us the discounted price at \$150/hand. That day I met Lain, the first thing I told him was- I am a Rotarian in Fort Collins, CO, and he said "Stop right there. You are already doing it my man, you are already doing amazing things, I just know it because you are a Rotarian. Our entire board is made up of Rotarians and it is one of the reasons we have been so successful with this project, thank you." And then I told him I would love to do this with my club and he handed me his personal card and said reach out to me and I will get you hooked up.
