Subject: RE: Sea Base Field Trip

Good morning Mr. Iguindy,
I forwarded your message to my District and they approved it. Since this field trip is not until next year, I can't determine yet who will be attending, but probably it will be two third grade classes. If I need to complete any paperwork please let me know and I will gladly do it.
Thanks again for keeping us in mind. If you need to contact me, the telephone for my school is (714) 564-2900.

Subject: Sea Base Field Trip

Hello Ms. Pereira,
The Rotary Club of Santa Ana North would like to sponsor a field trip to Newport Sea Base for a group of 60 students and accompanying adults in the Fall of 2014. We are doing same for Hoover School.
Attached are 3 pages covering all the present offering at Sea Base for various grade levels. They are working on a program for 4th graders. After your review, please let me know what you think? Thank you
