Brief Project Description:

This project is to package meals for under-nourished families in other countries, generally those struck by disasters. The financial commitment of 29 cents per meal covers the meal ingredients, equipment and instructions on how to package the meals, packaging materials, transportation and distribution of the meals. Participants in this effort will include Rotarians, Interactors, Rotoractors, and alumni of our Camp Enterprise, along with family members. This project entails obtaining a location (completed) and packaging 35,000 meals in a fun, assembly-line fashion.

1. Project Start and Ending Dates:

(Projects may not begin prior to the District receiving approval from TRF. Reimbursements for earlier expenses are not eligible. Projects must be completed by the end of each Rotary year.)

2. Project Location: ☒ Community ☐ International

(If the project is international, will there be a Rotary club from the other country involved? If so, explain how they will participate.)

10. Lasting impacts on the community:

How often do people as young as 4 get a hands-on opportunity to help others around the world survive? Our involvement of younger participants gives them a chance to provide relief for victims of disasters that they previously only heard about.

14. Additional Comments:

Stop Hunger Now's mission is to end global hunger in our lifetime. This is a difficult task, not because there is not enough food in the world but because it is difficult to distribute the food efficiently.

Since its inception 17 years ago, Stop Hunger Now has provided 180,000,000 meals in 65 countries. They invest more than 85% of their expenses into the program. This track record of effectiveness and efficiency is necessary to end global hunger. But it is not sufficient. The effort requires people to purchase the ingredients and package the meals. More than 11,000,000 meals have been packaged by Rotarians around the world for Stop Hunger Now.

Other Rotary clubs' efforts have inspired us; we hope our large club's project can inspire others.
