2. DESCRIPTION OF THE PROJECT

The family unit, faced with the need to work, educate and provide well-being to their children, has been forced to seek care and support in protective environments that are accessible and favor the integral development of their children. Our environment as the Rotary Educational Center in Envigado, has not been oblivious to these needs that arise today, where the search for providing economic stability to the family also prevails and therefore seeks to rely on the educational service that promotes the integral formation of boys and girls.

Thanks to your support, our club will help the community by solving its most important needs.
