RE: PROPOSED DRILLING OF A BOREHOLE AT NAMUSIMBI VILLAGE

Dear Sir,

This is to let you know that the County Government of Bungoma is willing to collaborate with your club as you seek to drill a borehole at Namusimbi village within Chwele location. This follows a successful public engagement that your club had with our officers and residents of the community last March. You are welcome to continue engaging my office for whatever assistance you may need as you develop the project.

Count on our support on the project at hand and other interventions that may require our input in the coming days.

Thanks for your continuous support to the needy in the society.

Warm regards,

RE: PERMISSION TO DRILL A BOREHOLE ON NAMUSIMBI PRIMARY SCHOOL LAND

We acknowledge receipt of your request regarding the proposed Namusimbi Water Project by the Rotary Club of Bungoma Central. We commend and support the initiative, which aims to improve access to clean and safe water for the school and surrounding community.

This letter serves to confirm that the NG-CDF is **willing to grant permission** for the proposed borehole to be drilled on the **Namusimbi Primary School land**, which was acquired through NG-CDF funding. We recognize the importance of this project and the value it will bring to the learners, teachers, and the wider community.

Please consider this as our formal consent to proceed with the necessary planning and implementation steps for the borehole project.

With regards,

Joyce N. Wanjala
